Dear Sir,

I am arranging for our expedition tests to be carried out in North Kent over the Easter holidays.

I have enclosed map references in respect of the planned routes for all three levels, which are being carried out in similar terrain to that used in previous years.

Exact numbers will not be known until mid-march - (it may be necessary to combine some groups if we have any drop out before completing their training, in which case some routes will not be used), but there will probably be in the region of 80 young people taking part with about 20 supervisors and assessors.

Should you require any other details please do not hesitate to ask.

Yours faithfully
David J. Holman

(D. E. C. Convenor)
