

THE BOYS' BRIGADE - NORTH WEST KENT BATTALION - D.E.A. COMMITTEE.

1 Meadow Court,
Ditton Fields,
Cambridge.

8th August, 1977.

Dear

I was very pleased recently to be able to tell you that you had completed all work for your Gold Level DEA Expedition. Further to this, I am now pleased to invite you to join our Assessing Staff and help others with your experience. Our work includes not only the teaching on the Training weekends, but also a considerable amount of preparation and 'backstage' work. I will assume that all expressing a wish to join our Staff will be prepared to help in whatever way they are asked.

Before you can be considered as a fully qualified assessor, you will be expected to have taught under supervision at both the October and March Bronze Training weekends, to have attended the Assessor's Training course in January, and to have joined us in Wales at Easter. Until you have satisfactorily completed this you will be known as a Trainee Assessor.

This year we have a potentially large intake of Staff, and it may not be possible to use all of you in the way that you would wish. I can assure you that we will do all we can to train you as soon as possible. I do hope that those of you who are members of organisations other than B.B. will do their best to pass on their experience directly, as well as continuing to work with us.

If, having thought about it, you would like to accept this invitation to join our Assessing Staff, would you please let Robert Hardy know, in writing, by the 31st August. His address is:-

176 Colyer Road,
Northfleet,
Kent.

I look forward to continuing to work with you in the future.

Yours most sincerely,

Colin Marshall.
(Expedition Organiser).
